

Sponsored by KU International & Area Studies: Center for Global & International Studies, Center of Latin American & Caribbean Studies, Kansas African Studies Center, Center for East Asian Studies, Center for Russian, East European & Eurasian Studies, KU Environmental Studies Program and the Commons

Water is one of the most important resources on the planet. From sub-Saharan Africa to India to American Midwest, rural and urban communities are attempting to find ways to deal with drought conditions and conserve water. This conference will address the various approaches and topics related to water and resolving the technical, social, political and environmental issues associated with the use and sustainability of this precious resource.

In addition to 7 diverse panels the program will feature 3 special guest speakers:

Karen Flournoy

Director for Water, Wetlands, and Pesticides Division, Region 7 Environmental Protection Agency

Dr. W. Christopher King

Dean of Academics, US Army Command and General Staff College, Ft. Leavenworth

Anupam Mishra

Renowned author, journalist, Gandhian grassroots environmentalist and water conservationist from India
